Sezione Servizi Innovativi

**hackathon**

***/ˈhækəθɒn/ noun:***

**an event in which a large number of people meet to engage  
in collaborative computer programming.**

# ***INNOVATION HACKATHON 2022***

It is a competition where students from various departments and regions

collaboratively work towards a common goal over a short period of time

to find **innovative solutions** to business cases.

# ***ACTORS***

STUDENTS – 4 UNIVERSITIES  
(LUISS Ud'A UNIVAQ UNIVPM)

ENTERPRISES

CONFINDUSTRIA CHIETI  
PESCARA- Innovative Services  
Department

# *WHAT?*

**You have to find the solution in a day and a half**

**Three business cases about innovative solutions  
introduced from three different companies**

**6 essential tips to be successful in an Hackathon**

**Communication – Responsibility – Problem  
solving – Teamwork – Leadership - Flexibility**

# WHY?

This Hackathon ended with a clear **English business presentation** of the solutions of business cases.

**Make it visual.** This makes it easier to explain your solution to the Evaluation Committee.

The best solution reaches  
**the Innovation Hackathon Awards 2022.**

It consists in **an award** given out by Confindustria Chieti Pescara. You can also put it in your reputation as a task you have achieved.

Hackathon is **a great opportunity for personal and academic development** and will of course also look good on your resume and gives **the opportunity to know enterprises and increase your business network.**

2021 - THE WINNERS

# WHERE?

## FACE TO FACE ACTIVITIES AND ON “MICROSOFT TEAMS”

“TEAMS” is a REMOTE PLATFORM

9 teams.

Each **TEAM** will be composed by **6-7 students** from all departments involved.

Each student could work with his computer desktop, laptop or tablet.

It is contemplated that there will be a time frame for tutor’s support and assistance.
